## WHAT A BUSY CITY!

The little New Yorkers in the Green Class (綠班) were certainly busy learning about the topic of "What A Busy City!" (忙碌的城市). It was an incredible experience for children to learn about the things we see in the city they live in everyday such as buildings (大樓), stores (商店), sidewalks (馬路), traffic lights (紅綠燈), transportations (交通工具), and animals such as dogs (狗) and pigeons (鴿子). Some of our favorite activities are going on a neighborhood walk to see the buildings around us, pretending to take the subway, creating a city mural with our friends, playing the game Red Light, Green Light, and more. In December, we got to know our friends from the Blue and Yellow classes even more by engaging with them in activities such as shoveling snow, dressing up the snowmen, and observing how ice melts during our winter assembly. The past few months have been busy for us and we've learned so much. When our family members came for Family Day, we were so eager to show them everything we've done since school started and we enjoyed our bonding time through watching our slideshow together.
