

# Blue Class Insider

## MY AMAZING BODY

We kicked off our first official school year together at Ya Ya with the "My Amazing Body" (奇妙的身體) topic which is most relevant to our children. Throughout the past few busy but productive weeks, not only did the children in the Blue Class (藍班) manage separation with impressive maturity for that age, they also started to bond with each other and care for each other. We are so proud to see them participating eagerly in activities, concentrating on the tasks at hand, and singing our topic theme song joyfully! We've learned so much about what our body parts can do and how we navigate our daily lives with our five senses.

topic resources!**

# ✨ Our Main Focus ✨

One of our main focuses during the past few weeks was to help the children become familiar with their surrounding environment and get used to the class routine. We utilized our routine songs and calming activities such as bubbles, playdough, and art wall to help children feel comfortable being in a new class with new friends and teachers. We learned to name our main body parts, and we deepened our understanding of body parts related concepts by engaging in hands-on activities such as painting a tree with our fingers, guessing what objects are in the mystery box, etc.

# ❖ Topic Learning Stations ❖

Our purposefully designed topic learning stations are the perfect time for children to be involved in topic-related activities that help develop their skills in areas such as math, language, social-emotional, cognitive and more. Some of our favorite learning station activities include using different shapes to make a body, making apple juice, and singing our topic theme song.

# ❖ Experiential Learning ❖

As the fall season approaches, we went on a "trip" to our Ya Ya Farm to pick apples, pumpkins, and feed farm animals. These real-life activities have added extra color to our school days!

# ❖ Extra Sweet Moments ❖

Our children love the company of each other. After just a few weeks, they know each other's names and they have started to care for each other and care for the environment by cleaning up. We also had a lot of fun celebrating Jason and Román's birthdays!
